

Minutes of the 6th The Hermes Standard Initiative Meeting

Date: 3rd of February 2020

Venue: San Diego, APEX EXPO fair grounds @ convention centre, room 33AB

Minutes: Håkan Sandell, Chair

Participating 19 (33%) companies in alphabetical order	
ASM Assembly Systems	KIC
BTU	KULICKE & SOFFA
CTI Systems	MYCRONIC
Digitaltest GmbH	Nordson Asymtek & Matrix
EUNIL	REHM
FlexLink	SEHO
Göpel electronic	SICK
Hanwha	TRI
ITW EAE	VISCOM AG
	ViTrox
Initiative members 39 (67%) not being present in the meeting	
4IR.UK British Systems	Magic Ray Technology
6TL Engineering GmbH	MIRTEC
ACHAT5 Engineering GmbH	NUTEK
allSMT	OMRON
ASYS	OSAI
Besi	PARMI
CKD	PEMTRON
CTS	Rejoint
CyberOptics	RG Elektrotechnologie
ECD	SAKI
ERSA GmbH	Scheid IT
EXELSIUS	Seica Automation
GKG	SMT Thermal Discoveries
Heller Industries	SolderStar
IPTE	Sonic Technology
JAPAN UNIX	SPEA S.p.A
JOT Automation	UIC
KEYSIGHT	YJ LINK
KOH YOUNG	YXLON
kolb Cleaning Technologies	

Agenda of 6th The Hermes Standard (IPC-HERMES-9852) Initiative Meeting

Introductory event for new members @ Room 33AB on APEX fair grounds		
Welcome & introduction of participants and companies including collection of expectations	Håkan Sandell Chair of the Initiative	9:00
Introduction to the standard & technical considerations regarding version 1.0.4 & 1.2.1	Peter Sundström HERMES Moderator	9:30
Coffee Break powered by Mycronic		11:00
Introduction to HERMES initiative approach, agreed principles & evolvement over time	Håkan Sandell Chair of the Initiative	11:15
Lunch Break powered by Mycronic		12:00 – 13:00

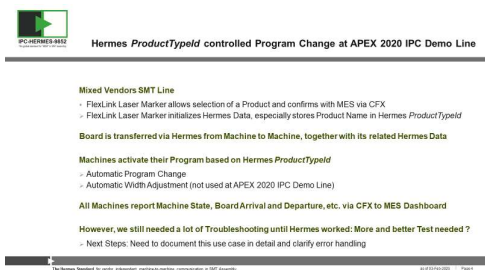

The Hermes Standard Initiative meeting @ Room 33AB on APEX fair grounds		
Welcome <ul style="list-style-type: none"> • Introduction of new initiative members • Recap 5th Meeting in November 2019 & joint activities since then 	Håkan Sandell Chair of the Initiative	13:00
Status per company (optional) <ul style="list-style-type: none"> • Status of implementation • Learnings (technical / process / ...) • Implementation roadmap per member 	All participants	13:45
Hermes roadmap per company at IPC-Homepage <ul style="list-style-type: none"> • Presentation of web page 	Håkan Sandell Chair of the Initiative	14:15
Workgroup "Hermes Use-Cases" <ul style="list-style-type: none"> • Presentation of updated "Hermes Best Practices". 	Tom Marktscheffel ASM	14:30
IPC award ceremony for Hermes initiative		14:45
Coffee Break powered by Mycronic		15:30
Workshop "Hermes Implementation Projects and IT Infrastructure" <ul style="list-style-type: none"> • Results of discussions 	Solin Ahmad Koh-Young	15:45
Workgroup MES (CFX) to line (HERMES) communication <ul style="list-style-type: none"> • Report of status and remaining work 	Tom Marktscheffel ASM	16:15
Future standardization process <ul style="list-style-type: none"> • Report of HERMES-IPC MoU status 	Håkan Sandell Chair of the Initiative	16:45
Organizational issues & decisions <ul style="list-style-type: none"> • Members forum activity • Next meeting 	Håkan Sandell Chair of the Initiative	17:15
The Hermes Standard at APEX 2020 <ul style="list-style-type: none"> • Joint marketing (press, signage, ...) 	Simon Sandgren Hermes Marketing	17:30
Wrap-up and end of meeting @ 18:00	All participants	17:45

<p>Status update per company</p> <p>A verbal status update per present member took place. Almost all members have implemented The Hermes Standard and have now more experience with customer installations compared with last meeting ~3 months ago.</p> <p>Many installations are mixed Hermes-SMEMA and would benefit from upgrading older equipment with Hermes-SMEMA boxes as demonstrated on the IPC-CFX-HERMES demonstration line at APEX. But even lines with partial Hermes installations have proved useful.</p> <p>More than one member pointed out that upgrade costs associated with older equipment is an important factor for potential customers and we should continue to work on the customer marketing message.</p> <p>The result of on-going workgroups in form of whitepapers on installation and common use cases was still seen as an urgent task to improve the customer experience even if several members had good feedback.</p>																																																																								

<p>Hermes roadmap at IPC homepage</p> <p>A suggestion of how to present and enter data, similar to CFX way of working has been submitted to IPC for implementation. IPC has not been able to confirm a date for going live on the cfx.ipc.org website.</p>	<p>Håkan Sandell (Chair) / Chris Jorgenson (IPC)</p>	<p>Open</p>
<p>Workgroup “Hermes Use-cases”</p>  <p>The expected whitepaper as result of workshop was not ready. Tom Marktscheffel (ASM) presented the experiences of setting up the APEX demonstration line which made it clear that this work is needed and urgent.</p> <p>As discussed and agreed with 16 to 0 votes the results should be uploaded to the forum to facilitate early discussion and adoption even if formal approval will be at next meeting</p> <p>Presentation: 4_Workgroup_HermesUseCases_6th Meeting.pptx</p>	<p>Tom Marktscheffel (ASM)</p>	<p>March 2020</p>
<p>IPC award ceremony</p>  <p>Awards for contributing to the IPC-HERMES-9852 standard was handed over to individual members by Dave Bergman IPC Vice President.</p> <p>Group photo was taken and everybody celebrated with cake.</p>	<p>Dave Bergman (IPC)</p>	<p>Done</p>
<p>Workgroup “Hermes Implementation Project & Infrastructure”</p>  <p>Markus Mittermair (Rehm) and Håkan Sandell (Chair) summarized findings during the workshop. A whitepaper “Hermes IT Success Factors” will be finalized and uploaded to the forum by the workgroup.</p> <p>Some important items to a successful installation are</p> <ul style="list-style-type: none"> • Project responsible • Early involvement of customer IT • IT topology • IT infrastructure & network <p>Presentation: 6_Infrastructure_workshop.pptx</p>	<p>Hélène Schlöter (Ersa) / Stephan Gramlich (Koh Young)</p>	<p>March 2020</p>

<h3>Workgroup “MES (CFX) to line (HERMES) communication”</h3>  <p>During efforts to write results of workshop meeting in form of a whitepaper it is clear that an additional workgroup meeting is necessary. This will be planned by Tom Marktscheffel (ASM) and Håkan Sandell (Chair). Håkan presented a graphical view of one of several use cases identified as a preview.</p> <p>Presentation: 7_CFX_Hermes_workgroup.pptx</p>	<p>Tom Marktscheffel (ASM)</p>	<p>Open</p>
<h3>Future standardization process</h3> <p>Due to short time since last meeting no MOU was ready to be presented.</p>	<p>Håkan Sandell (Chair)</p>	<p>Open</p>
<h3>Next meeting location & meeting host</h3>  <p>The initiative decided to hold the next meeting on Monday the 2nd of November – the day before – Productronica South China 2020 in Shenzhen in order to minimize the overall traveling effort and to synchronize the activities for the fair while leveraging the planned CFX-Hermes demo line. The draft of the agenda will be sent out 8 weeks before the meeting.</p> <p>If your company would like to sponsor the next meeting, please be so kind to contact Håkan Sandell.</p>	<p>Håkan Sandell (Chair)</p>	<p>Open</p>

Overview of action items as discussed in the meeting

Wrap-up of The 6th Hermes Standard Initiative Meeting Open activities

Open activities	Lead	Due
1. Review & publish "HERMES benefits" in presentation for webpage	Håkan Sandell (Mycronic)	Q2 / 2020
2. Publish "HERMES technical introduction" slides for webpage	Peter Sundström (Mycronic)	Q1 / 2020
3. Visualize company roadmap & status regarding the Hermes implementation	Håkan / Chris	Q2 / 2020
4. Create whitepaper "Hermes Implementation Projects and IT Infrastructure"	Stephan Gramlich (KohYoung)	March 2020
5. Finalize HERMES Use-case slides and upload to homepage	Tom Marktscheffel (ASM)	Q2 / 2020
6. Continue CFX / HERMES alignment and drive whitepaper creation	Tom M. (ASM) / M. Ford (Aegis)	Q2 / 2020
7. Create final proposal for horizontal Inkspot & subpanel BC whispering	M. Sokolowski (Nordsson Matrix)	TBD
8. Prepare MoU to convert Hermes initiative into IPC standardization process	Håkan Sandell (Mycronic)	LEAP 2020
9. Organize 7th meeting at Productronica South China 2020	Håkan Sandell (Mycronic)	LEAP 2020
10. Organize next joint multivendor showcase for Productronica South China 2020	Chuck Li (IPC)	LEAP 2020
